KHALIL SALL

Learner

ERIFO has realized the following course under the European Youth Guarantee Program, through the imported methodologies Peer Education and Cooperative Learning

“Operatore della vigilanza e sicurezza a tutela di beni e persone from 07/09/2015”

Hi my name is Khalil,

I'm from Mauritania. I have attended the course “Operator for supervision and safety protection of persons and goods” organised by ERIFO under the European Youth Guarantee Program. I think the training was really interesting for me because I had the chance to have a confrontation with peers who were attending my same course, exchanging not only knowledge and competences but also life's experiences, which was really important and constructive for me. Thanks to this opportunity the group had the chance to be informed about the partnership, the aims, the learning methodologies and the objectives of INSCHOOL project that I found really interesting.
